## Trailing 12 months in context

This month set against the prior 11. Label-pipeline (label/data + mixed categories combined) is broken out so the share of total is visible per month.

MONTH	TOTAL RECALLS	LABEL-PIPELINE
January 2023	0	0
February 2023	0	0
March 2023	0	0
April 2023	0	0
May 2023	0	0
June 2023	0	0
July 2023	0	0
August 2023	0	0
September 2023	0	0
October 2023	0	0
November 2023	0	0
December 2023	1	0
<b>Trailing-12 total</b>	<b>1</b>	<b>0</b>

## Methodology & about this report

---

This report is generated from data Phenominal Consulting maintains from two California Department of Cannabis Control public sources: [recalls.cannabis.ca.gov](https://recalls.cannabis.ca.gov) (recall notices) and [cannabis.ca.gov/cannabis-laws/compliance-action-records](https://cannabis.ca.gov/cannabis-laws/compliance-action-records) (enforcement actions). Every record on this report is sourced verbatim from a DCC public notice. The DCC portals are the authoritative source; if you find a discrepancy, the portal is correct.

**Recall category labels** (contamination, label/data, mixed, other, packaging) are interpretive groupings applied by Phenominal Consulting based on the verbatim DCC reason language on each notice. They are not DCC's own classification. **Enforcement action types** (Citation and Fine, Suspension, Revocation, Annual License Denial) are DCC's own labels.

**Counts** reflect each separately-published record on the DCC portals. DCC publishes one recall row per recalled SKU; a single enforcement event that pulls multiple SKUs publishes as multiple rows. Enforcement actions are counted once per published action.

Reports publish on the 1st of each month covering the prior calendar month. For live data between reports, see <https://phenominal.io/recalls>.

### About Phenominal Consulting

Phenominal Consulting is a Sacramento-based California cannabis distribution compliance practice. We work with Type 11 distributors on the operational gap between the lab, the ERP, the label generator, and the printer — the data flow that produces every printed cannabis product label and the recall surface the DCC most frequently cites.
