## Trailing 12 months in context

This month set against the prior 11. Label-pipeline (label/data + mixed categories combined) is broken out so the share of total is visible per month.

MONTH	TOTAL RECALLS	LABEL-PIPELINE
July 2024	7	1
August 2024	7	0
September 2024	9	3
October 2024	6	2
November 2024	3	0
December 2024	9	3
January 2025	4	3
February 2025	7	3
March 2025	14	3
April 2025	18	5
May 2025	9	7
June 2025	7	3
<b>Trailing-12 total</b>	<b>100</b>	<b>33</b>

## Methodology & about this report

---

This report is generated from data Phenominal Consulting maintains from two California Department of Cannabis Control public sources: [recalls.cannabis.ca.gov](https://recalls.cannabis.ca.gov) (recall notices) and [cannabis.ca.gov/cannabis-laws/compliance-action-records](https://cannabis.ca.gov/cannabis-laws/compliance-action-records) (enforcement actions). Every record on this report is sourced verbatim from a DCC public notice. The DCC portals are the authoritative source; if you find a discrepancy, the portal is correct.

**Recall category labels** (contamination, label/data, mixed, other, packaging) are interpretive groupings applied by Phenominal Consulting based on the verbatim DCC reason language on each notice. They are not DCC's own classification. **Enforcement action types** (Citation and Fine, Suspension, Revocation, Annual License Denial) are DCC's own labels.

**Counts** reflect each separately-published record on the DCC portals. DCC publishes one recall row per recalled SKU; a single enforcement event that pulls multiple SKUs publishes as multiple rows. Enforcement actions are counted once per published action.

Reports publish on the 1st of each month covering the prior calendar month. For live data between reports, see <https://phenominal.io/recalls>.

### About Phenominal Consulting

Phenominal Consulting is a Sacramento-based California cannabis distribution compliance practice. We work with Type 11 distributors on the operational gap between the lab, the ERP, the label generator, and the printer — the data flow that produces every printed cannabis product label and the recall surface the DCC most frequently cites.
